Citizens and Governing Board
Glendale Elementary School District No. 40
7301 North 58th Avenue
Glendale, Arizona 85301

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Glendale Elementary School District No. 40 (District) for the fiscal year ended June 30, 2021.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Dobridge & Company, P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2021, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

ALL IN FOR ALL KIDS

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

The District is one of 58 public school districts located in Maricopa County, Arizona. It provides a program of public education from preschool through grade eight, with an average daily membership of 8,121 students. The District encompasses approximately 16 square miles and is located primarily in the City of Glendale, Arizona ("Glendale"), which lies within the greater Phoenix metropolitan area and about 16 miles northwest of Downtown Phoenix. The estimated population within the District is 245,895. The District's enrollment continues to decrease. The District's buildings range in age from approximately 15-80 years.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/ expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, the component unit combined with the District for financial statement purposes and the District are not included in any other governmental entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, finance, student transportation, construction and maintenance of District facilities, and food services and information technology.

Blended Component Units – The Glendale Elementary School District No. 40 Employee Benefit Trust (Trust) is governed by a five-member board appointed by the District’s Governing Board. Although legally separate from the District, the Trust is reported as an Internal Service Fund as if it were part of the District because its sole purpose is to provide self-insurance for losses up to certain limits and to purchase insurance for losses above the limits. Complete financial statements of the Trust may be obtained at the District’s administrative offices.

Glendale is the fifth largest city in the State according to the U.S. Census Bureau’s 2010 Census. The city is located in the northwest portion of the greater Phoenix metropolitan area. Glendale consists of approximately 56.8 square miles and is one of the six major cities comprising the greater Phoenix metropolitan area, which is Arizona’s economic, political, and population center.

Glendale’s demographics evidence the growth of the area. Established in 1892 and incorporated in 1910, Glendale had a 2016 population of 245,849.

Glendale has begun to diversify its economic base. Aerospace, communications, sports, entertainment, chemicals, warehousing, electronics, and precision metal working and casting are some examples of industries that are replacing Glendale’s former agricultural base.

As mentioned above, Glendale’s employer base includes both government, non-manufacturing, and manufacturing employers. Glendale’s economy is supplemented by Luke Air Force Base.

The annual expenditure budget serves as the foundation for the District’s financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District’s Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have over expenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue, therefore a deficit budgeted fund balance may be presented. However, this does not affect the District’s ability to expend monies.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local Economy. Maricopa County is located in the south-central portion of Arizona and encompasses an area of approximately 9,226 square miles. Its boundaries encompass the cities of Phoenix, Scottsdale, Mesa, Tempe, Glendale, Chandler, and such towns as Gilbert, Paradise Valley and Fountain Hills. Maricopa County is currently the nation’s fourth largest county in terms of population size and the 14th in land area. Population growth is expected to be approximately two percent in the next year.

Employment and population growth both result in an expanded residential market. Housing had been buffeted in the past year by the economic slowdown caused by the pandemic, which has led to a mixture of results. An unexpected one is that house sales increased. Aside from the sharp pandemic-related drop in the spring of 2020, the market has been very strong. Even with the pandemic slowdown, total sales in 2020 were the highest in a decade and sales year-to-date 2021 are running at high volumes. The pandemic initially resulted in much lower consumer spending, and made home ownership a greater priority, especially with new and additional opportunities to work from home. Low mortgage rates made purchases more attainable. By mid-2021 sales have slowed, likely attributable to the shortage of supply in the metro region and rapidly escalating prices. However, sales generally continue to equal or exceed monthly average volumes since 2011 and pending sales were up sharply in August, signaling continued market strength.

A variety of negative factors could emerge to slow the housing market, especially declining affordability, but the near-term forecast is for continued strength. Mortgage rates are expected to rise but not excessively, though continued price increases will be a problem, especially for first-time buyers. Members of the millennial generation, between 25 and 40 years old, make up nearly 40 percent of the residential market now, with stable and well-paying jobs contributing to purchasing capability. Overall, there may be some slowing in the housing market, but fundamental conditions remain strong and continued growth is expected.

Employment growth in the metro region will not be limited to a single sector or geographic area. Education and health services are to grow the fastest, but manufacturing may have the greatest impact. In north Phoenix, Taiwan Semiconductor Manufacturing Co. (TSMC) is working toward a 2024 opening of its' first phase semiconductor fabrication plant in the U.S. with about 2,000 employees. TSMC is also bringing a significant number of Taiwanese suppliers to Arizona, some of which will locate in north Phoenix and others that will locate elsewhere in the metro region. In the Southeast Valley, Intel is expanding its' Chandler campus with two more fabrication plants, adding approximately 3,000 jobs. Electric vehicle company ElectraMeccanica broke ground on a new factory in east Mesa in early 2021 for production to start in 2022. KORE Power is to begin construction on a manufacturing facility for battery cells in Buckeye by the end of 2021 that will eventually employ about 3,000 workers. In Pinal County, Lucid Motors has completed the first phase of its electric automobile manufacturing plant with about 750 employees, and a second phase moving forward, while Nikola Motor is building a factory to produce hydrogen fuel cell trucks with production to begin in 2023.

Long-term Financial Planning. GESD is developing a long-term financial plan that will be sustainable and meet the various stakeholders' needs in its Maintenance and Operation (M&O) Fund as well as developing a comprehensive capital plan. GESD continues to maintain a carry forward in M&O and allocates a portion of the revenue control limit and/or District's additional assistance into unrestricted capital.

GESD continues to develop a budget process that fosters collaboration, transparency while being fiscally responsible and sustainable.

The District continues to strive for excellence in educational achievements and the quality opportunities certified, classified and administrative staff provide. The District Assessment Plan, in coordination with State requirements, includes the administration of the AzM2 assessment in English Language Arts and Mathematics.

Additionally, the District utilizes formative and summative assessments in math and reading throughout all grade levels. District benchmark assessments measuring how well students learned reading, writing, science, and mathematics curriculum scheduled to be taught during each instructional period are administered throughout the year. Progress on all of these assessments is reported for the entire student population, as well as for ethnicity gender, language proficiency, and special program populations. Prior to the first benchmark all students are given a universal screener that identifies their greatest area of need. Finally, students in K-8 are assessed for reading proficiency by the use of iReady assessment.

The Curriculum and Instruction Department provides support to the following curricular areas: Reading, Writing, Social Studies, Math, Science, English Language Development, Health, Art, Music, Physical Education, and Media Literacy. The Department also provides support to staff in increasing instructional capacity to deliver high quality instruction that promotes student learning. Through data driven decision-making, facilitative leadership, Professional Learning Communities, home-school partnerships and communication, and after-school intervention programs, the District promotes meeting the individual needs of learners. Continued training in these areas will occur to develop administrative and grade-level team capacity. The District uses two Achievement Advisors at every school to coach and mentor classroom teachers in a routine and systematic manner to improve classroom instruction. Customized professional development is provided to teachers to ensure quality in all areas.

AWARDS AND ACKNOWLEDGMENTS

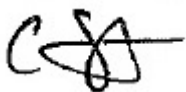

Awards. The Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2020. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2020. In order to be awarded these certificates, the District published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year ended June 30, 2021 certificates.

Acknowledgments. The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

Respectfully submitted,

Independent Auditors' Report

Governing Board of
Glendale Elementary School District No. 40
Glendale, Arizona

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Glendale Elementary School District No. 40, (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of year ended June 30, 2021, and the respective changes in financial position and where, applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis beginning on page 5, the budgetary comparison information beginning on page 65, the pension information beginning on page 68, and the related note to required supplementary information on page 73 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

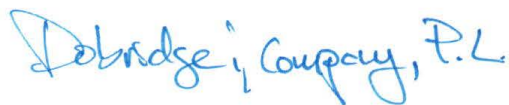

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the the District's basic financial statements. The introductory section, budgetary comparison schedules and related note, combining and individual nonmajor fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and budgetary comparison schedules, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 27, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
JUNE 30, 2021**

As management of the Glendale Elementary School District No. 40 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year June 30, 2021, were as follows:

- As of June 30, 2021, the District's total net position was \$24.8 million. This is a decrease of \$1.4 million, or 5.4 percent, from fiscal year 2019-20.
- General revenues of \$66.8 million accounted for 53.4 percent of all fiscal year 2020-21 revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions of \$58.2 million accounted for 46.6 percent of total fiscal year 2020-21 revenues.
- The District had \$126.3 million in expenses related to governmental activities; of which \$58.2 million of these expenses were offset by program specific charges for services, operating grants and contributions, and capital grants and contributions. General revenues of \$66.8 million provided resources for most of the remaining \$68.2 million of District costs. The deficiency between the general revenues and remaining District costs resulted in net position decreasing \$1.4 million.
- The General Fund reported \$56.0 million in revenues and \$55.7 million in expenditures. The revenues consisted primarily of \$37.6 million in state aid and grants and \$12.5 million in property taxes. As a result of annual activity, the General Fund's fund balance increased \$1.8 million.
- The District's net capital assets decreased \$3.7 million as a result of activity throughout the year. For additional information regarding the capital assets, see financial statement note 5.
- The District issued \$13.6 million in School Improvement Bonds. Proceeds from the bonds will be used for school buildings' structural deficiencies repair and replacement, safety and security improvements to school buildings, and new school construction.
- On July 1, 2020, the District made a \$2.4 million principal payment on outstanding bonds reducing the principal owed to \$42.7 million as of June 30, 2021. For further information regarding bonds, see financial statement note 9.
- The District made a \$359,128 principal payment on an outstanding capital lease reducing the principal balance to \$3.8 million as of June 30, 2021. For further information regarding leases, see financial statement note 11.
- As of June 30, 2021, the District's total net position for the Internal Service Fund was \$2.2 million. This is a decrease of \$466,751, or 17.3 percent, from fiscal year 2019-20.

**GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
JUNE 30, 2021**

FINANCIAL HIGHLIGHTS

- The District was awarded \$69.4 million from the Elementary and Secondary Schools Emergency Relief (ESSER) Fund based on the projected final eligible LEA cohort and spent \$15.5 million for the fiscal year ending June 30, 2021.
- The District received and spent \$4.0 million from the Enrollment Stabilization Grant (ESG) Fund for the fiscal year ending June 30, 2021.

OVERVIEW OF FINANCIAL STATEMENTS

The District's basic financial statements are comprised of the government-wide financial statements, the fund financial statements and the notes to the financial statements. These sections provide a comprehensive overview of the District's finances.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements of the District include the Governmental activities. Most of the District's basic services are included here, such as instruction, extra-curricular activities, curriculum and staff development, and general administration. Property taxes, intergovernmental revenues and grants finance most of these activities.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be presented in the following categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

**GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
JUNE 30, 2021**

OVERVIEW OF FINANCIAL STATEMENTS

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. The governmental fund *Balance Sheet* and the governmental fund *Statement of Revenues, Expenditures, and Changes in Fund Balances* provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund *Balance Sheet* and in the governmental fund *Statement of Revenues, Expenditures, and Changes in Fund Balances* for all major funds. Data from the other non-major governmental funds are combined into a single, aggregated presentation.

Proprietary funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. Because the services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide statements.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Required supplementary information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process. The District adopts an annual expenditure budget for all governmental funds. A budgetary comparison schedule is provided for the General Fund and any major special revenue funds. Additionally, pension schedules detailing the District's proportionate share of net pension liability and pension contributions are presented as required supplementary information.

Other supplemental information has also been provided for informational purposes with combining and individual fund financial statements and budgetary comparison schedules and are presented immediately following the required supplementary information beginning on page 75.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$24.8 million as of June 30, 2021. The following represents significant information regarding changes and balances:

- The District's current assets increased \$18.7 million primarily due to an increase in due from other governments.
- The District had \$3.7 million in additions and \$62,785 of net deletions to capital assets that were offset by depreciation expense of \$7.3 million, resulting in an overall net decrease in capital assets of \$3.7 million.
- Current liabilities increased \$4.8 million due to an increase in deferred revenues.
- Noncurrent liabilities increased \$24.9 million due to the issuance of new bonds and increase in net pension liability.
- Deferred outflows of resources increased \$8.1 million, and deferred inflows of resources decreased \$5.2 million primarily due to the results of investment activity and participant activity when compared to Arizona State Retirement System's estimates.
- By far, the largest portion of the District's net position, \$67.6 million, reflects its net investment in capital assets. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Additionally, \$17.4 million of the District's net position represents resources that are subject to external restrictions. The remaining deficit balance of net position, \$60.3 million, is considered unrestricted. For additional information regarding net position, see financial statement note 1.Q.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
JUNE 30, 2021**

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The following table provides analysis of the District's major and other governmental funds' fund balances and the total change in fund balances for the two years ended June 30, 2021 and 2020.

<u>Fund</u>	<u>June 30, 2021</u>	<u>June 30, 2020</u>	<u>Change</u>	<u>Percent Change</u>
General Fund	\$ 15,018,579	\$ 13,183,699	\$ 1,834,880	13.9 %
Title I Grants Fund	-	(573,529)	573,529	100.0 %
ESSER Grants Fund	-	(57,728)	57,728	100.0 %
Bond Building Fund	18,022,073	5,991,705	12,030,368	200.8 %
Other Governmental Funds	17,296,613	17,748,022	(451,409)	(2.5)%
Total	<u>\$ 50,337,265</u>	<u>\$ 36,292,169</u>	<u>\$ 14,045,096</u>	<u>38.7 %</u>

The total governmental fund balances were \$50.3 million at June 30, 2021. It is not expected that the nature of the restrictions, commitments or other limitations on fund balances will significantly affect future operations. Overall governmental fund balance increased \$14.0 million. The following represents significant information regarding changes:

- The General Fund's fund balance increased \$1.8 million, or 13.9 percent, primarily due to decrease in instructional expenditures. Of the General Fund's fund balance, \$14.7 million is unassigned, which may serve as a useful measure of net resources available for spending at June 30, 2021.
- The Title I Grants Fund's fund balance increased \$573,529, or 100.0 percent, due to revenue being recorded to the extent earned for grant funds.
- The ESSER Grants Fund's fund balance increased \$57,728, or 100.0 percent, due to revenue being recorded to the extent earned for grant funds.
- The Bond Building Fund's fund balance increased \$12.0 million, or 200.8 percent, primarily due to issuance of new bonds.
- The Other Governmental Funds' fund balance decreased \$451,409, or 2.5 percent, primarily due to decrease in various revenues.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's budget is prepared annually according to Arizona law. The General Fund Budgetary Comparison Schedule presents the budgeted amounts, as well as the variances between the final budget and the actual expenditures incurred.

Significant variances for the final amended budget and actual revenues resulted from the District not being required by the State of Arizona to prepare a revenue budget.

The General Fund's adopted budget for the fiscal year ending June 30, 2021, was \$72.3 million. Over the course of the year, the District revised the General Fund annual expenditure budget to \$57.7 million to reflect revised funding amounts due to a decrease in attendance.

The actual amounts expended in the General Fund were \$56.0 million, which was \$1.7 million, or 3.0 percent, less than the final budget. This difference was due to operation and maintenance of plant expenditures being less than anticipated.

CAPITAL ASSETS

As of June 30, 2021, the District had invested \$98.8 million in capital assets (net of accumulated depreciation) including school buildings, athletic facilities, buses, computers, and other equipment.

The following schedule presents a comparison of the capital asset balances for the years ended June 30, 2021 and 2020.

<u>Governmental activities:</u>	<u>June 30, 2021</u>	<u>June 30, 2020</u>	<u>Change</u>	<u>Percent Change</u>

Total	<u>\$145,350,175</u>	<u>\$120,426,740</u>	<u>\$ 24,923,435</u>	<u>20.7 %</u>

Overall long-term liability balance increased \$24.9 million. The following represents significant information regarding changes:

- Bonds payable increased \$11.2 million, or 35.6 percent, due to the issuance of new bonds.
- Bond premium increased \$1.5 million, or 126.3 percent, due to the issuance of new bonds and related premium.
- Net pension liability increased \$12.9 million, or 16.7 percent, and other postemployment benefits decreased \$465,813, or 12.4 percent due to the results of investment activity and participant activity when compared to anticipated results as determined by the Arizona State Retirement System's actuaries.
- The capital lease decreased \$359,128, or 8.6 percent, due to the payment of principal as required by the capital lease agreements.
- Compensated absences increased \$145,129, or 5.7 percent, due to the accrual and use of available leave balances by employees.

ECONOMIC FACTORS AND NEXT YEAR'S GENERAL FUND BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the General Fund's budget for the next fiscal year (fiscal year 2021-22). The primary factors considered in developing fiscal year 2021-22's budget were the District's student population and related employee salaries. This chart provides the District's average daily membership over the past five years.

100 Day Count

Also considered in the development of the budget is the local economy and inflation of the surrounding area. Amounts available in the General Fund's fiscal year 2021-22 budget are \$69.8 million, an increase of 21.1 percent, which reflects the following:

- Available budget balance carryforward is \$1.7 million.
- Current year average daily membership is 8,121 and is expected to decrease in the fiscal year 2021-22 school year.

GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2021**

Net change in fund balances - total governmental funds **\$ 13,999,190**

Amounts reported for the governmental activities in the *Statement of Activities* are different because:

Governmental funds report capital outlays as expenditures. However, in the *Statement of Activities*, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	3,737,454
Depreciation	(7,330,616)
Net disposal of capital assets	(62,785)

Property taxes and other receipts in the *Statement of Activities* that do not provide current financial resources are not reported as revenues in the governmental funds.

Prior year unavailable property tax	(482,477)
Prior year receipts after 60 day recognition period	(1,126,669)
Current year unavailable property tax	1,141,885
Current year receipts after 60 day recognition period	626,014

District pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the *Statement of Net Position* because the reported net pension liability is measured a year before the District's report date. Pension and OPEB expenses, which are the changes in the net pension and OPEB liabilities adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the *Statement of Activities*.

Pension contribution	6,754,865
Pension expense	(6,137,488)
OPEB contribution	263,381
OPEB expense	(42,005)

The Internal Service Fund is used by management to charge the cost of insurance to the individual funds. The changes in net position of the Internal Service Fund is reported with governmental activities in the *Statement of Activities*. (466,751)

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the *Statement of Net Position*. Repayments of long-term debt principal are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the *Statement of Net Position*. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is issued, whereas these amounts are amortized in the *Statement of Activities*.

Bond proceeds	(13,600,000)
Bond premium	(1,600,556)
Bond principal payment	2,540,000
Amortization of bond discount/premium	104,368
Capital lease principal payment	359,128

Under the modified accrual basis of accounting used in the governmental funds, expenditures, such as compensated absences, are not recognized for transactions that are not normally paid with expendable available resources. In the *Statement of Activities*, however, which is presented on the accrual basis of accounting, expenses are reported regardless of when the financial resources are available.

(145,129)

Some cash outlays, such as changes in inventories, are reported as expenditures in the governmental funds when purchased. In the *Statement of Activities*, however, they are reported as expenses when consumed.

GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Glendale Elementary School District No. 40 (District) has prepared the financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

A. Reporting Entity

The District is a special-purpose government that a separately elected governing body governs. It is legally separate from and fiscally independent of other state and local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and it is not included in any other governmental reporting entity. Consequently, the District's financial statements present only the activities of those organizational entities for which its elected governing board is financially accountable.

The Governing Board is organized under §15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls. The District's major operations include education, student transportation, food service, and maintenance of District facilities.

Criteria for determining if other entities are potential component units which should be reported within the District's basic financial statements are identified and described in the GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, §'s 2100 and 2600. The application of these criteria provides for identification of any entities for which the District is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's basic financial statements to be misleading or incomplete. Accordingly, for the year ending June 30, 2021, the District does not have any component units and is not a component unit of any other reporting entity.

B. Basis of Presentation

The basic financial statements include both government-wide financial statements and fund financial statements. The government-wide financial statements focus on the District as a whole, while the fund financial statements focus on fund reporting. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Government-Wide Financial Statements - Provide information about the primary government (the District). The statements include a *Statement of Net Position* and a *Statement of Activities*. These statements report the overall government's financial activities. They also distinguish between the District's governmental and any business-type activities. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties. The District does not have any business type activities.

A *Statement of Activities* presents a comparison between direct expenses and program revenues for each function of the District's governmental activities and segments of any business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses to programs or functions. Program revenues include:

- charges to customers for goods, services, or privileges provided
- operating grants and contributions
- capital grants and contributions

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double-counting of internal activities. However, charges for interfund services provided and used are not eliminated if the prices approximate their external exchange values.

Fund Financial Statements - Provide information about the District's funds, including proprietary funds. Separate statements are presented for the governmental and proprietary fund categories. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds. Any fiduciary funds are aggregated and reported by fund type. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District's accounts are organized into major governmental funds and other governmental funds as follows:

Major Governmental Funds:

General Fund - to account for all resources used to finance District operations except those required to be accounted for in other funds. The General Fund as presented includes the District's Maintenance and Operation Fund and other special revenue funds that do not have a substantial restriction on expenditures.

Title I Grants Fund - to account for federal financial assistance received to help improve disadvantaged students academic performance.

ESSER Grants Fund - to account for federal financial assistance received to support K-12 schools to respond to the COVID-19 pandemic and the declaration of statewide school closures.

Bond Building Fund - to account for proceeds from district bond issues that are used for acquiring or leasing school sites; constructing or renovating school buildings; supply school buildings with furniture, equipment, and technology; improving school grounds; purchasing pupil transportation vehicles; or paying existing bonded indebtedness.

Other Governmental Funds:

Debt Service Fund - to account for the accumulation of resources and the payment of principal and interest on bonds.

Special Revenue Funds - to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

Capital Project Funds - to account for the acquisition and construction of all major governmental general capital assets.

Proprietary Funds:

Internal Service Fund - to account for the financing of the District's self-insurance for employee benefits.

GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

C. Basis of Accounting

Government-wide Financial Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenues in the year for which they are levied. Grants and donations are recognized as revenue as soon as all eligibility requirements the provider imposed have been met.

Under the terms of grant agreements, the District funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. The District applies grant resources to such programs before using general revenues.

Governmental Fund Financial Statements - Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become both measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. Major revenue sources that are susceptible to accrual are property taxes, tuition, intergovernmental grants and aids, and investment earnings. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments, and compensated absences, which are recognized as expenditures to the extent they are due and payable. As permitted by generally accepted accounting principles it is the District's policy to apply the "early recognition" option for debt service payments. Property tax resources are provided in the Debt Service Fund during the current year for the payment of any debt service principal and interest due early in the following year (usually one to several days, up to one month). Therefore, the expenditures and related liabilities have been recognized in the current period. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of general long-term debt and acquisitions under capital lease agreements are reported as other financing sources.

Proprietary Fund Financial Statements - The proprietary fund is reported using the economic resources measurement focus and the accrual basis of accounting. The proprietary fund distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service fund are charges to other funds to support the District's self-insurance fund. Operating expenses for the internal service fund mainly include the payment of insurance claims. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

D. Expenses and Expenditures

Using the accrual basis of accounting, expenses are recognized at the time a liability is incurred. In the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However, under the modified accrual basis of accounting, expenditures are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental fund statements. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Cash and Investments

The District considers cash on hand, demand deposits, cash and investments held by the County Treasurer, investments in the State Treasurer's local government investment pool, and only those highly liquid investments with a maturity of 3 months or less when purchased to be cash and cash equivalents.

Arizona Revised Statutes require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash in the Bond Building and Debt Service Funds, which may be invested separately.

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pool, obligations issued or guaranteed by the United States or any of its agencies or instrumentalities, specified state and local government bonds and notes, and interest-bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. The District may also invest these monies. In addition, statute authorizes the District to maintain various bank accounts, such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk.

GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

F. Property Taxes

The Maricopa County Treasurer is responsible for collecting property taxes for all governmental entities within the County. The County levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

A lien assessed against real and personal property attaches on the first day of January preceding assessment and levy.

The District does not report a reserve for uncollectible property taxes as they are considered 100 percent collectible due to the County attaching a lien against all amounts past due as noted above.

G. Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

H. Inventories

Inventories in the government-wide and financial statements are recorded as assets when purchased and expensed when consumed. These inventories are stated at cost using the first-in/first-out (FIFO) method. The costs of inventories are accounted for using the consumption method (expensed when consumed).

I. Capital Assets

Capital assets are reported in the government-wide financial statements. Such assets are recorded at historical cost, or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at acquisition value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. The capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts) are \$5,000 for all assets.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	20 years
Buildings and improvements	7 - 40 years
Vehicles, furniture, and equipment	5 - 20 years

GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

J. Deferred Outflows and Inflows of Resources

The *Statement of Net Position* and *Balance Sheet* include separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense or expenditure in future periods. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to future periods and will be recognized as a revenue in future periods. Delinquent property taxes that will not be collected within the 60 day availability period are reported as deferred inflows of resources in the governmental fund financial statements.

K. Postemployment Benefits

For purposes of measuring the net pension and other postemployment benefit (OPEB), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the plan's fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Advances from Grantors

Advances from grantors arise when assets are received before revenue recognition criteria have been satisfied. Advances from grantors generally comprise of federal and state entitlement revenues received before eligibility requirements are met.

M. Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

N. Federal Revenue Sources

The District receives federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

O. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the fund financial statements. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

P. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the *Statement of Activities*. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds.

Q. Net Position

In the government-wide financial statements, net position is reported in three components:

Net investment in capital assets - Net investment in capital assets consists of capital assets, net of accumulated depreciation reduced by any outstanding debt used to acquire, construct, or improve these assets.

Restricted - Restricted net position is reported when constraints placed on the net position use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or by state legislation.

Unrestricted - Unrestricted net position is used to account for the net position balance that does not meet the definition of either of the first two categories of net position.

R. Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

Nonspendable fund balance - Amounts which cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. This would include items not expected to be converted to cash including inventories and prepaid items.

Restricted fund balance - Amounts with constraints placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or state legislation.

Committed fund balance - Amounts that can only be used for specific purposes pursuant to constraints imposed by the formal action of the Governing Board. These amounts cannot be used for any other purposes unless the Governing Board removes or changes the specific purpose by taking the same kind of formal action previously used to commit these amounts. Adoption of the annual budget does not constitute a commitment as appropriations lapse at year end without Governing Board action. This also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

R. Fund Balance Classifications

Assigned fund balance - Amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by the Governing Board or body or official to which the Governing Board has delegated the authority to assign amounts to be used for specific purposes. Assigned fund balance in governmental funds, other than the General Fund, includes all spendable amounts that are not restricted or committed, if that amount is positive. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by the formal Governing Board action. The District does not have a formal policy or procedures for the utilization of assigned fund balance, accordingly, no assigned fund balance amounts are reported.

Unassigned fund balance - Spendable amounts in the General Fund that are not restricted, committed or assigned. The General Fund is the only fund that may report a positive unassigned fund balance amount. For governmental funds other than the General Fund, negative fund balances are reported here if restricted, committed, or assigned amounts exceed total spendable fund balance.

Hierarchy for use of fund balances - When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, the District uses restricted fund balance first. For the disbursement of unrestricted fund balances, the District uses committed amounts first, followed by assigned amounts, and, lastly, unassigned amounts.

Minimum fund balance policy - The District has not adopted a policy regarding maintenance of minimum fund balances.

S. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 - CASH AND INVESTMENTS

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's cash deposits may not be returned. The District does not have an adopted policy for custodial credit risk. As of June 30, 2021, the carrying amount (reported) cash balance was \$1,074,447 (\$950,600 reported within the governmental funds and \$123,847 reported in the proprietary funds), while the total bank balance was \$3,084,049, which was fully insured by the Federal Deposit Insurance Corporation (FDIC) and the collateral described below. The FDIC protects deposits in each bank the District uses against loss for the first \$250,000 of demand deposits and \$250,000 of time deposits. Any deposits of cash deposits in excess of \$250,000 are covered by collateral held by the pledging financial institution's trust department in the District's name.

Arizona statute requires eligible depositories that accept public monies to participate in the pooled collateral program for public deposits. The Statewide Collateral Pool Administrator (Administrator) is responsible for ensuring that eligible depositories have posted 102% collateral for each public depositor in excess of any federally insured deposits. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured against loss. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

External Investment Pool. A.R.S. §15-996, authorizes the Maricopa County Treasurer to receive and hold all District monies and pool the monies with other school districts for investment purposes. As of June 30, 2021, the District reported \$27,337,520 (\$25,235,182 in the governmental funds and \$2,102,338 in the proprietary funds) on deposit with the Maricopa County Treasurer's Investment Pool (MCTIP). The MCTIP is an external investment pool with no regulatory oversight. The MCTIP is not required to register (and is not registered) with the Securities and Exchange Commission. As of June 30, 2021, the MCTIP did not receive a credit quality rating from a national rating agency. The Maricopa County Treasurer invests the cash in a pool under policy guidelines established by the County. The Maricopa County Treasurer accounts for the investment pool in their Fiduciary Investment Trust Fund. Interest rate risk, credit risk, custodial credit risk and concentration of credit risk regarding the MCTIP are included in the Annual Comprehensive Financial Report of Maricopa County. The fair value of each participant's position in the MCTIP approximates the value of the participant's shares in the pool and the District's shares are not identified with specific investments. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rate will adversely affect the fair value of an investment. The District does not have an adopted investment policy that limits investment maturities to one year or less as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. Credit risk is the risk that an insurer or other counterparty to an investment in a debt security will not fulfill its obligations. The District has no investment policy that would further limit its investment choices than what is allowable per A.R.S.

NOTE 10 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

A. Arizona State Retirement System

Plan description - District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at www.azasrs.gov.

Aggregate Amounts - At June 30, 2021, the District reported the following aggregate amounts related to pensions and OPEB for all plans to which it contributes:

	<u>Pension</u>	<u>OPEB</u>	<u>Total</u>
Net Liability	\$ 90,127,359	\$ 3,282,830	\$ 93,410,189
Deferred outflows of resources	16,263,112	246,677	16,509,789

NOTE 10 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Benefits provided - The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

Retirement initial membership date:

	Before July 1, 2011	On or after July 1, 2011
Years of service and age required to receive benefit	Sum of years and ages equals 80 10 years, age 62 5 years, age 50* Any years, age 65	30 years after age 55 25 years, age 60 10 years, age 62 5 years, age 50* Any years, age 65
Final average salary is based on	Highest 36 consecutive months of last 120 months	Highest 60 consecutive months of last 120 months
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%

*With actuarially reduced benefits.

GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE 10 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earning. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. For members with 10 or more years of service, benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents. For members with 5 to 9 years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction based on completed years of service.

Active members are eligible for a monthly long-term disability benefit equal to two-thirds of monthly earnings. Members receiving benefits continue to earn service credit up to their normal retirement dates. Members with long-term disability commencement dates after June 30, 1999, are limited to 30 years of service or the service on record as of the effective disability date if their service is greater than 30 years.

Contributions - In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2021, statute required active ASRS members to contribute at the actuarially determined rate of 12.22 percent (12.04 percent for retirement and 0.18 percent for long-term disability) of the members' annual covered payroll, and statute required the District to contribute at the actuarially determined rate of 12.22 percent (11.65 percent for retirement, 0.39 percent for health insurance premium benefit, and 0.18 percent for long-term disability) of the active members' annual covered payroll. In addition, the District is required by statute to contribute at the actuarially determined rate of 10.21 percent (10.14 percent for retirement, and 0.07 percent for long-term disability) of annual covered payroll of retired members who may have worked for the District in positions an employee who contributes to the ASRS would typically fill. The District's contributions to the pension, health insurance premium benefit, and long-term disability plans for the year ended June 30, 2021, and for the two preceding years, all of which were equal to the required contributions, were as follows:

<u>Year ended June 30</u>	<u>Retirement Fund</u>	<u>Health Insurance Premium Benefit</u>	<u>Long-Term Disability Fund</u>	<u>Total Contributions</u>

The District's OPEB balance and related activity for the fiscal year ending June 30, 2021, was immaterial, therefore, related disclosures have been omitted.

Liability - At June 30, 2021, the District reported a pension liability of \$90,127,359 for its proportionate share of the ASRS' net pension liability.

The net liability was measured as of June 30, 2020. The total liability used to calculate the net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2019, to the measurement date of June 30, 2020.

The District's proportion of the net liability was based on the District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2020, and the change from its proportions measured as of June 30, 2019, were:

	Proportion <u>June 30, 2020</u>	Increase (Decrease) From <u>June 30, 2019</u>
Pension	0.5202 %	(0.0106)%

Expense - For the year ended June 30, 2021, the District recognized \$6,137,488 of pension expense.

NOTE 10 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Actuarial assumptions - The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2019
Actuarial roll forward date	June 30, 2020
Actuarial cost method	Entry age normal
Investment rate of return	7.5%
Projected salary increase	2.7 - 7.2%
Inflation	2.3%
Permanent benefit increase	Included
Mortality rates	2017 SRA Scale U-MP
Recovery rates	2012 GLTD for long-term disability
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on ASRS plan investments was determined to be 7.5 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Geometric Real Rate of Return</u>
Equity	50.00 %	6.39 %
Fixed income - credit	20.00 %	5.44 %
Fixed income - interest rate sensitive	10.00 %	0.22 %
Real estate	20.00 %	5.85 %
Total	<u>100.00 %</u>	

Discount rate - The discount rate used to measure the ASRS total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 10 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Sensitivity of the District’s proportionate share of the ASRS net pension liability to changes in the discount rate - The following table presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.5 percent) or 1 percentage point higher (8.5 percent) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
District's proportionate share of the:	<u> </u>	<u> </u>	<u> </u>
Net pension liability	\$ 123,247,941	\$ 90,127,359	\$ 62,440,255

Plan fiduciary net position - Detailed information about the plan’s fiduciary net position is available in the separately issued ASRS financial report.

Contributions payable - The District’s accrued payroll and employee benefits included \$404,391 of outstanding pension amounts payable to ASRS for the year ended June 30, 2021.

B. Single-Employer OPEB Plan

Plan description - Under authority of the Governing Board, the District provides postretirement insurance benefits, for certain retirees and their dependents, in accordance with the District's Early Retirement Program. The plan is a single employer defined benefit OPEB plan administered by the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75. Generally, resources from the General Fund are used to pay for postemployment benefits.

Benefits provided - The plan provides postretirement insurance (health, dental and life) benefits for eligible retirees up to age 65. An employee is eligible if he/she has served 15 consecutive years and the employee qualifies for full retirement under the State of Arizona's retirement plan. In addition to this requirement, beginning March 12, 2015 the employee must be at least 55 years old unless the employee had completed 13 years or more of service as of July 1, 2013 or works 30 or more years of service with the District. Eligible retirees receive a District contribution towards coverage under one of the District’s medical plans, up to the retiree-only PPO premium. The retiree must designate the District as the recipient of the ASRS Retiree Premium Benefit (also called the ASRS “subsidy”).

Contributions - The District currently pays for postemployment benefits on a pay-as-you-go basis. For the current fiscal year, the District contributed \$263,381 for these benefits. The District’s regular insurance providers underwrite the retiree policies. Retirees may not convert the benefit into an in-lieu payment to secure coverage under independent plans. A separate financial report is not issued for the plan.

Employees covered by benefit terms- The following employees were covered as of the effective date of the OPEB valuation:

Inactive employees entitled to but not yet receiving benefit payments	48
Active employees	<u>522</u>
Totals	<u><u>570</u></u>

NOTE 10 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

Total OPEB liability - The District's total OPEB liability of \$3,282,830 was measured as of June 30, 2021. The total liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of July 1, 2018, to the measurement date of June 30, 2020.

Actuarial assumptions and other inputs - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit cost between the employer and plan members to that point. The total OPEB liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Measurement date	June 30, 2019
Actuarial valuation date	July 1, 2019
Discount rate	0%
Inflation rate	
Projected salary increases	3.0%
Healthcare cost trend rate	5.0% for 2021-2023, 5.20 percent for 2024-2069
ASRS subsidy increases	None
Cost of living adjustments	N/A

The discount rate is based on the index rate for a 20 year tax exempt general obligation municipal bond with an average rating of AA/Aa or higher. At June 30, 2021, the discount rate used to measure the total OPEB liability was 1.92 percent, which was a change from 2.45 percent used as of June 30, 2020.

Pre-retirement mortality rates were based on the RP-2014 Employee Mortality Table for Males or Females, as appropriate, without projection. Post-retirement mortality rates were based on the RP-2014 Health Annuitant Mortality Table for Males or Females, as appropriate, without projection.

NOTE 11 - CAPITAL LEASE

The District has acquired energy and lighting upgrades under the provisions of long-term lease agreements classified as capital leases. The lease agreements qualify as capital leases for accounting purposes and, therefore, has been recorded at present value of the future minimum lease payments as of the inception date. Revenues from the Energy and Water Savings Fund, a non-major capital projects fund, are used for payment of the capital lease obligation.

The assets capitalized and acquired through capital leases are as follows:

<u>Asset</u>	<u>Governmental Activities</u>

NOTE 12 - DEFICIT FUND BALANCES

The District reported a deficit fund balance in the following funds:

	Deficit
Other Governmental Funds:	
First Things First	\$ 131,568

The deficits are due to the differences of the District being allowed to expend up to approved award amounts and the timing of related revenue to be received by the District. Future receipts are expected to eliminate the deficit fund balances.

NOTE 13 - INTERFUND TRANSFERS

The following is a summary of interfund transfers reported as of June 30, 2021:

Funds	Interfund	
	Transfers In	Transfers Out
General Fund	\$ 2,137,927	\$ 642,295
Title I Grants Fund	-	302,991
ESSER Grants Fund	-	672,278
Other Governmental Funds	498,395	1,018,758
Total	\$ 2,636,322	\$ 2,636,322

The transfer was made (1) to move indirect costs from federal grant funds to the Indirect Costs Fund, which is grouped within the General Fund, (2) to move monies from the Maintenance and Operations Fund, which is part of the General Fund, to Energy and Water Savings Fund, and (3) to move monies from Maintenance and Operations Fund to Community School Fund, which are both part of the General Fund.

NOTE 14 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District was unable to obtain insurance at a cost it considered to be economically justifiable. Therefore, the District established the following self-insurance funds.

The District has established a Property and Casualty Insurance Fund (an Internal Service Fund) to account for and finance its uninsured risks of loss related to property and liability claims. Under this program, the Property and Casualty Insurance Fund purchases insurance from the Arizona School Risk Retention Trust, Inc. (ASRRT). The District is a member of the Arizona School Risk Retention Trust, Inc (ASRRT), together with other school districts in the state. ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for member school districts. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District has established a Workers' Compensation Fund (an Internal Service Fund) to account for and finance its uninsured risks of loss related to claims for on-the-job injuries to employees. Further, the District joined the Valley Schools Workers' Compensation Pool (VSWCP) together with other districts in the state for the risks of loss related to workers' compensation. VSWCP is a public risk pool currently operating as a common risk management and insurance program for member school districts. The District, through the Workers' Compensation Fund, pays a lump-sum annual premium to VSWCP for workers' compensation insurance coverage. The agreement provides that VSWCP will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event. Under this program, the Workers' Compensation Fund collects contributions and pays premiums on insurance.

The District has established an Employee Benefit Trust Fund (an Internal Service Fund) to account for and finance its uninsured risks of loss related to claims for employee dental. Further, the District joined the Valley Schools Employee Benefit Trust (VSEBT) together with other districts in the state for the risks of loss related to employee health claims. VSEBT is a public entity risk pool currently operating as a common risk management and insurance program for member school districts. The District, through the EBT Fund, pays a lump-sum annual premium to VSEBT for health insurance coverage. The agreement provide that VSEBT will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event. Under this program, the Employee Benefit Trust Fund collects contributions and pays premiums on insurance.

NOTE 15 - COMMITMENTS AND CONTINGENCIES

Federal grants - In the normal course of operations, the District receives grant funds from various federal agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to insure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of audits of grant funds is not believed by District officials to be material.

Litigation - Each year the District receives notices of claims for damages occurring generally from negligence, bodily injury, breach of contract, and other legal matters. The filing of such claims commences a statutory period for initiating a lawsuit against the District arising therefrom. The District has comprehensive general liability insurance with the ASRRT. The District is not aware of any litigation that might result in a materially adverse outcome.

Contingencies - On March 11, 2020, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Management believes the District is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated since it is still developing.

NOTE 16 - SUBSEQUENT EVENTS

Grants - The Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA) was signed into law on December 27, 2020. It provides additional money for the Elementary and Secondary School Emergency Relief Fund (ESSER) and the Governor's Emergency Education Relief Fund (GEER), programs created by the Coronavirus Aid, Relief, and Economic Security Act (CARES) in March 2020. The Arizona Department of Education allocated \$19,778,886 in ESSER II grant monies that can be expended through September 30, 2022; and \$44,769,877 in ESSER III grant monies that can be expended through September 30, 2023. The District spent \$10,951,764 from ESSER II Fund and none from ESSER III Fund during fiscal year 2020-21. Therefore, the unspent remaining amounts are \$8,827,122 from ESSER II Fund and \$44,769,877 from ESSER III Fund, which can be used for subsequent fiscal years.

NOTE 1 - BUDGETARY COMPLIANCE AND ACCOUNTABILITY

The District's budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following items:

- A. The General Fund, as reported in the budgetary comparison schedule, includes the District's Maintenance and Operation Fund (M&O) in addition to several other District funds consistent with accounting principles generally accepted in the United States of America. In accordance with Arizona Revised Statutes, the District is required to budget expenditures at the individual fund level.
- B. Expenditures that are allowable for budget reporting but not allowable as expenditures within the scope of generally accepted accounting standards are detailed and reconciled at the bottom of the following table.

The following schedule presents financial statement details of the District's M&O Fund, the main budgetary fund for the District per Arizona Revised Statutes, separately for analysis.

OTHER CAPITAL PROJECTS FUNDS - DESCRIPTIONS
JUNE 30, 2021**

The following non-major Capital Projects Funds are maintained by the District. Arizona Revised Statutes (A.R.S.) and the Uniform System of Financial Records (USFR) require the establishment of these funds for the specified financial activities.

Unrestricted Capital Outlay - to account for transactions relating to the acquisition of items by purchase, or lease as prescribed by A.R.S. Section §15-903(C).

Adjacent Ways - to account for monies received to finance improvements of property adjacent to the school, such as public streets or alleys, or improvements of school property that provide safe access for buses and fire equipment.

Condemnation - to account for monies received from proceeds from sales by condemnation or right-of-way settlements.

Energy and Water Savings - to account for capital investment monies, energy-related rebate or grant monies, and monies from other funding sources, including clean renewable energy bonds, to fund energy or water saving projects in school facilities.

Building Renewal Grant - to account for monies received from the School Facilities Board that are used for infrastructure or for major upgrades, repairs, or renovations to areas, systems or buildings that will maintain or extend their useful life.

STATISTICAL SECTION

GLENDALE ELEMENTARY SCHOOL DISTRICT NO. 40
STATISTICAL SECTION - DESCRIPTIONS
JUNE 30, 2021

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

Financial Trends

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the District's ability to generate property taxes.

Debt Capacity

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

Demographic and Economic Information

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

Operating Information

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

Due to cost considerations for the accumulation of data, the District has elected to present less than ten years of data, or data from less than nine years prior, for certain statistical schedules. This information will be accumulated and reported each year until the complete ten years of data is provided.
